SKYLEADER

**LIGHT AIRCRAFT
 (UL/LSA CATEGORY)
 FOR RECREATIONAL FLYING,
 PILOT TRAINING
 AND SPECIAL OPERATIONS**

SAFETY X PRESTIGE X EMOTION

ALL METAL AIRCRAFT

One and two-seater low-wing aircraft for a wide range of activities

- SKYLEADER 100
(one-seater UL category MTOW 315 kg)
- SKYLEADER 200
(UL category MTOW 472,5 kg)
- SKYLEADER 500
(UL/LSA category MTOW up to 580 kg)
- SKYLEADER 600
(UL/LSA category MTOW up to 600 kg)

Real Aircraft

COMPONENT SUPPLIES

We are also a certified component supplier for the aeronautical industry according to EN/AS 9100

FLIGHT CHARACTERISTICS

- High level of flight safety
- Smooth and easy handling
- Wide range of flight speed
- Very short take-off and landing distances

for Real Pilots

USER BENEFITS

- High level of customization
- Full factory customer service
- ASTM certified materials and production
- Long-term durability
- Fast assembly and disassembly
- Low maintenance cost

MANUFACTURING SKILLS

Drilling, milling, routing, forming, slotting, riveting, sealing, chromating

CARBON-COMPOSITE AIRCRAFT

Two-seater high-wing aircraft for flight schools

- SKYLEADER GP ONE
(UL category MTOW 472,5 kg)

with Real Guarantees

RESEARCH & DEVELOPMENT

- “Innovation of the Year” award for SKYLEADER 600
- „Best Cooperation Project“ for joint-development of UAV (unmanned aerial vehicle) MARABU
- World speed record achieved by a jointly developed emissionless fuel-cells powered ENFICA-FC aircraft
