DO YOU WANT TO BECOME A MEMBER OF SKYLEADER FAMILY?

Dear potential commercial partners,

Our company JIHLAVAN airplanes, s.r.o., producer of SKYLEADER aircraft, currently seeks distributors and commercial agents capable to sell our aircraft to end customers (mainly individual users as well as flight schools and aero-clubs) with our full sales & marketing support.

Please try to answer yourself these questions first:

- Are you experienced in light aviation?
- Do you have knowledge about the market?
- Are you ready to commit sufficient time and energy into this project?
- Are you willing and able to certify the aircraft at your local certification office?
- Are you ready to provide support to individual users with the local registration?
- Do you have an access to airfield, hangar possibilities, service shop, etc.?
- Are you in a position to purchase a demonstrator aircraft for presentation purposes?

If your responses are positive, we are ready to meet with you and discuss the details of our potential co-operation.

Looking forward to your reply at market@skyleader.aero,

Your SKYLEADER team
